Figure S5  Distribution of polymorphisms in strain 309. A) Supercontig 1. The location of ti is indicated by a vertical arrow. B) Supercontig 2, C) Supercontig 3, D) Supercontig 4, E) Supercontig 5, F) Supercontig 6, G) Supercontig 7. H) The region from 3170432 to 3730000 on Supercontig 1. The location of ti is indicated by a vertical arrow. Total SNPs are plotted in blue. SNPs that are unique to strain 309 are plotted in red. Indels are plotted in green. Polymorphisms were sorted by Supercontig and position and the total number in a 10 kb moving window is plotted on the Y axis. The X axis corresponds to the position along the Supercontig. Distances are X 10 kb.
