Figure S1  RNA blots of ncRNAs identified through strand-specific sequencing. Details of each ncRNA are in Table 1. Samples were loaded in the order: wild-type (W) and pnpJ-1 (P). Sizes of rRNAs (nt) are shown at the left.
Figure S1 cont. RNA blots of ncRNAs identified through strand-specific sequencing. Details of each ncRNA are in Table 1. Samples were loaded in the order: wild-type (W) and pnp1-1 (P). Sizes of rRNAs (nt) are shown at the left.
