

Supplemental Figure 5. Average high temperature data (<http://www.noaa.gov>) for four growing locations. The data is mean high temperature data from June 2009 to May 2012. Monthly temperature average weather station data from the National Oceanic and Atmospheric Administration (<http://www.noaa.gov>) was examined for locations closest to farm locations: Berkeley, CA (37.874, -122.260), Davis, CA (38.535, -121.776), and West Lafayette, IN (40.475, -86.992).
