

Figure S13: FACT complex subunits and their domain organization in *Alexandrium tamarense*. (A) *Alexandrium tamarense* SPT16 proteins; (B) *Alexandrium tamarense* SSRP1 proteins; (C) *Saccharomyces cerevisiae* SPT16; (D). *Saccharomyces cerevisiae* SPT16; (E) Domain color code. An orange “I” in front and/or after the protein indicates that the protein sequence is known to be not represented completely in the transcriptome assembly (note that its absence does not mean that the sequence is complete).
